

AURORA

FIRES & FIREPLACES

SHOWROOM COLLECTION 2024/25

THE UK'S PREMIER FIRES & FIREPLACES SUPPLIER

Established in 1985, Aurora Fires & Fireplaces began its journey with the sole focus of manufacturing quality marble fireplaces for the UK independent trade. We have developed from a small family run company into one of the most trusted and recognisable names within the fireplace industry.

Aurora's showroom collection now offers a vast range of products including traditional marble fireplaces, stunning media walls and fires that are guaranteed to ignite the centre of your home.

Our quality fires and fireplaces create an impressive focal point that needs to be experienced first-hand. This is why our fires and fireplaces are only found in local showrooms.

We invite you to explore the extensive and exclusive fireplace range from Aurora.

All dimensions are in millimetres (mm)

DIMENSIONS

Due to the unique technical requirements of fire products it is not possible to ensure compatibility with all fires. Please consult a suitably qualified tradesman who will be able to advise which products are suitable for your setup.

General information – Gas fires
If intending to install a gas fire to complement your surround, we strongly advise that this is carried out by a suitably qualified GAS SAFE registered installer.

Our Micro Marble fireplaces are suitable for use with most gas fires. However due to a wide variation in heat outputs and designs, we recommend that you consult with your gas fire manufacturer to confirm compatibility with Micro Marble

IMPORTANT
Heat discolouration in marble may occur with gas fires of 3kW output and above – dependant on make and model of gas fire.
